

# ROLLING STOCK

Saturday 20 November 2010 Junee

All Aboard! ROLLING STOCK is a series of site specific performances, installations and collaborations between artists, visiting audiences and the local Junee community on a train moving through the rural landscape from Midday to Midnight on Saturday 20th November 2010.

Ranging from the odd, the spectacular and the sublime, ROLLING STOCK embraces art, community and landscape in its broadest form(s). Beginning with a series of creative residencies with over 15 artists generating content with and relevant to the Junee community and other worldly concerns, ROLLING STOCK will culminate with a 1 day public event commencing at Junee Railway station at high noon on Saturday 20th of November. From here the ROLLING STOCK train will meander its way around the countryside with audio visual installations and participatory live art performances manifesting throughout the afternoon. Concluding ROLLING STOCK will be a Rockabilly band playing live at the Junee Licorice & Chocolate Factory until midnight.

Highlights of ROLLING STOCK include:

Acclaimed UK artist CHRIS WATSON, who is travelling to Australia specifically to participate in ROLLING STOCK. WATSON is known for his early work as founding member of influential experimental music group Cabaret Voltaire, and more recently for his work as a BAFTA award winning field recordist for David Attenborough, BBC Nature documentaries and feature films. For ROLLING STOCK Watson will be premiering recordings from his forthcoming album 'El Tren Fantasma' - The Ghost Train'. Utilising sounds from recording work for the documentary series 'Great Train Journeys' with Rick Stein in Mexico, 'El Tren

Fantasma' will be recontextualised for ROLLING STOCK train via live surround sound mixes as the train ventures through significant landmarks.

The Perth based PVI COLLECTIVE will be resolving on-board conflict resolution relevant to local and global issues through the ancient art of tug-o-war.

The real life RENNY KODGERS will be on hand to entertain with his immense presence via variety quizzes, dulcet tones and sheer celebrity power.

Other artists participating in ROLLING STOCK include an exciting array of sound, video art, installation, performance, interactive experts and public artists:

ALAN LAMB, DAVE NOYZE, GARRY BRADBURY, JOEL STERN , KATE MURPHY,  
PUBLIC ASSEMBLY, JUSTY PHILLIPS, MARGARET WOODWARD, ANTHONY  
CAHALAN, ROSS MANNING, RYSZARD DABEK, SHANNON O'NEILL, the GENERAL  
COMMUNITY  
and YOU!
